A Lot Of Good

performed by Waylon Jennings.

PART ONE:

Verse 1:

```
                    D
As i watched the tail lights disappear
   G                      Bm
Suddenly it got real lonely here
              D
I know the words i could have said

To make her turn around
      G              A          D
But a lot of good it's gonna do me now
```

Verse 2:

```
                         G
I could have started with i'm sorry
       A                    D
And really meant it from the heart
    A                       G
The rest would have been easy
                 A
Together in the dark
```

Verse 3:

```
                              D
We could have found that old time feeling
      G                    Bm
That we lost somewhere somehow
        G          A          D
But a lot of good it's gonna do me now
```

PART TWO:(half a tone higher)

Verse 4:

```
                                   D#
Still thinking about the things i could have said
      G#                          Cm
And looking at her picture by the bed
                D#
I realized just what i've lost as i pulled the covers down
      G#             Bb          D#
But a lot of good it's gonna do me now
```
