Busy Man

by Billy Ray Cyrus

Note: This translation was prepared in "Courier New" text format. I played this song off of my radio, so the key may be slightly off from the original recording. If it is, try using a capo or re-tuning your guitar by a half-step.

Intro.: Big kudos to whoever can figure out the intro. I can pickout the notes, but have been unsuccessful in finding the chord combinations in this key that will allow me to do the hammer-ons. If you figure it out, let me now and I'll update this submittal.
