Folks Out On The Road

Verse 1:
```
  E                    B              C#m
You'd stand in the rain to buy a ticket
   A                   E               B
Front row seats are always first to go
  E                   B                C#m
You know all the songs as well as i do
   A                  B                E
This one's for the folks out on the road
```

Verse 2:
```
  E                         B                  C#m
You fight the crowds for autographs and pictures
    A                      E                 B
A chance to shake a hand after the show
  E                        B                C#m
For all the times that we don't get to thank you
   A                  B                E
This one's for the folks out on the road
```

Chorus:
```
   A                  B                    E
Thank you for the chance to make the music
       A              B             C#m
The songs are the only thing i know
  A                   B      E             C#m
Some are for the money,some are for myself
   A                  B                C#m
This one's for the folks out on the road
```

Verse 3:
```
  E                    B                C#m
For those of you who always play the records
  A                   E          B
For all of you who play the radio
   E                  B                      C#m
Those who took the time for something special
   A                  B                E
This one's for the folks out on the road
```

Chorus.

```
   A                  B                E
This one's for the folks out on the road
```
