Honeymoon On A Rocket Ship

Recorded by Hank Snow
Words and music Johnny Masters

D
I know somewhere out in the world
D7 G
There is a gal for me
A
I'd like to find and make you mine
A7 D
How happy we would be ...
We wouldn't need a moonlit night
D7 G
To sit outdoors and spoon
A
'Cause I would buy a rocket ship
A7 D
And take you to the moon.

A7
We would have our honeymoon
D
On the rocket ship
E E7
We would fly from star to star
A A7
On our wedding trip
D
You could make your wedding gown
D7 G
Out of a big moon- beam
A
Sprinkle stardust in your hair
A7 D
You'd be a perfect dream.

We'd sit on top of the universe with no one else around
I'd reach right up and pick the stars and make you a pretty crown.
I'd place it on your little head and kiss your smiling lips
As we glided out through space upon the rocket ship

CHORUS

Then we'd go strolling arm in arm along the milky way
We would visit every planet on our wedding day
We would laugh and love sweetheart and you could be my wife
We would find the land of love out there in paradise.

We would have our honeymoon, on the rocket ship
We would fly from star to star, on our wedding trip
I'd take my old guitar along and we could softly croon
On our journey through the sky and headed for the moon.
