Last Old Shovel

D G D
They buried her on the side of the mountain
A
There my darling sleeps in the ground
D G D
I stayed by her side 'til they covered her over
A D
And the last old shovel was laid down

D G D
Till the last old shovel was laid down, laid down
A
Till the last old shovel was laid down
D G
I stayed by her side and I cried and I cried
D A D
When the last old shovel was laid down

A G D
I think of her when it's stormy and raining
A
In that mountain far away
D G D
I long to be laid by her side on that mountain
D A me on that [D
There'll be rest for day

There'll be rest for me on that day, that day
There'll be rest for me on that day
I long to be laid by her side on that mountain
On that mountain far away

Oh bury me where my true love is sleeping
Where she lies in that lonesome ground
I'll find sweet rest by the side of my darling
When the last old shovel is laid down
