We Had It All

Verse 1:

```
   C/G                                  Am
I can here the wind blowin' through my mind
 F                          G                          C/G
Just the way it used to sound through the Georgia pines
                                      Am
You were there to answer when i called
  F                   G              C/G
You and me Lord knows we had it all
```

Verse 2:

```
    C/G                                 Am
Remember how i used to touch your hair
F                              G                      C/G
  While reaching for a feeling that was always there
                                        Am
You were the best thing in my life that i recall
F                           C/G
  You and me,we had it all
```

Bridge:

```
  C/G          F              C/G
I know that we can never live those times again
                  F              C/G
So i'll let my dreams take me back to where we've been
                  F          C/G
And i'll stay with you girl as long as i can
F                 C/G F          C/G
  Oh it was so good,was so good
                      G          C/G
mmm mmm when i was your man
```

Verse 3:(A tone higher)

```
 D                                Bm
I'll never stop believing in your smile
G                             A                      D
  Even though you didn't stay it was all worth while
                                        Bm
You were the best thing in my life that i recall
G              A            D
  You and me,we had it all
```
