Why Baby Why

CHORUS:

```
          A
Tell me why baby why baby, why baby why
                  E                    B        E
You make me cry baby cry baby, cry baby cry
      A
You know that I'll love you 'til the day that I die
             E                        B          E
So tell me why baby why baby, why baby why
```

(Willie)

```
E                              B
Well I got a crow I wanna pick with you
      A                           E
Just like last time when the feathers flew
                               B
You're runnin' wild kickin' up your heels
 A                             B         E
Leavin' me home with a handful of bills
```

CHORUS

BREAK: A B E

(Waylon)

```
      E                   B
Well I don't know but I've heard say
      A                           E
That every little dog is gonna have his day
                                        B
You better pay attention don't ya dare forget
          A                      B        E
'Cause I'm just a little bitty puppy yet
```

CHORUS (2x)
