Interlude: G, F, C, G, F

Holding you here like a rose in the dark
I make this promise to you from my heart
You won't be lonely now

I wanna give you everything you need
I wanna show you
You won't be lonely now
I'd do anything to make you see
How I'm gonna love you
You won't be lonely
You won't be lonely

Now that you're here in my arms I'm alive
For the first time in a long time I
Look at my face in the mirror and see
The man that I've wanted to be

Oh Yeah
