If We Walk in the Light

```
       C                     F            C
If you walk in the Light as He is in the Light,
                             G
We'll have fellowship one with another.
         C                   F              C
Then the blood of Jesus Christ cleanses every sin,
                           G            C
If we walk in the Light as He is in the Light.

         F                   C
Then the light from within can shine on every heart,
       F                     C          G
So now let your light shine to everyone impart.
```

Repeat entire song twice
Finish with verse one
