Written by: J. Rhodes/D. Reynolds

SILVER THREADS AND GOLDEN NEEDLES Linda Ronstradt

```
        G                                  C
I don't want your lonely mansion  with a tear in every room
       G                                                  A   D
All I want's the love you promised beneath the silvery moon-oon.
        G                                  C
Do you think I could be happy with your money and your name
      G                             D                    G
And drown myself in sorrow while you play your cheating game
```

CHORUS:

```
          C                                  G
Silver threads and golden needles can not mend this heart of mine
                                                           A   D
And I dare not drown my sorrows in the warm glow of your wine-ine
           G                                 C
Your can't buy my love with money cause I never was that kind
        G                                   D                  G
Silver threads and golden needles can not mend this heart of mine.
```

lead go to chorus

ENDING:

```
          C                   G             F
Silver threads and golden needles can not mend this heart
     G   F  G  F  G
of mine-ine-ine-ine.
```
