In And Out The Window-Traditional

In And Out The Window-Traditional

```
   D
Go in and out the window,
   A7             D
Go in and out the window,
   D
Go in and out the window,
     A7              D
And see what you can see!

Now, stand and face a partner,
Now, stand and face a partner,
Now, stand and face a partner,
And see what you can see!

GAME:
VERSION ONE:
 All stand in a circle with hands joined and arms held high to
   form the "windows".
 One person weaves in and out of people in the circle, going
   under the joined hands during verse 1.
 During verse 2, this person stands in front of someone else in
   the circle.
 This person takes the place of the original "weaver".

VERSION TWO:
 Same as version one, except that after the "weaver" chooses a
   partner, they both go around the circle during the next round.
 Then, each partner chooses a new partner (total of four) for the
   third round.
 Continue in such fashion until no one is left!
```
