Bottle Up And Go

```
    C
She may be old, ninety years,
                          C7
But she ain't too old to shift them gears.
```

Chorus:

```
           F7                        C
You got to bottle up and go, got to bottle up and go,
        G7                F7                        C
All you high power women, all got to bottle up and go.
```

Well, a nickel is a nickel and a dime is a dime,
You shake yours and I'll shake mine.

I'm so glad the world's round like a ball,
There's enough pretty women here for us all.

When God made a woman, well he made her
mighty funny,
Made the stuff around her lips taste just like honey.
