Cocaine Blues

```
C                        C7
Yonder comes my baby all dressed in blue.
F                   F7
Hey baby, what you gonna do ?
C       G7            C
Cocaine all around my brain.
```

Chorus:

```
E7
Hey, baby, won't you come here quick
F                    F7
This old cocaine is makin' me sick
C       G7            C
Cocaine all around my brain.
```

```
Yonder comes my baby all dressed in white,
Hey, baby, gonna stay all night ?
```
